

POLYCONE45 POLYETHYLENE IBC

The Hoover CS Polycone 45 Polyethylene Intermediate Bulk Container (IBC) combines the low cost & low tare weight of polyethylene with the strength and durability of stainless-steel. Its reusable, corrosion-resistant rotationally molded bottle, plus the 45-degree-angled conical-shape bottom, allows high viscosity products to flow easily and quickly. Our polyethylene IBC offers flexible filling either from the top or bottom.

Available in 260-gallon (984 liter) only.

ABOUT HOOVER CS

We are paving the way for companies across the chemical, refining and general industrial-end markets to move away from single-use containers. Through our large rental fleet of reusable liquid and dry IBCs and ISO tanks, combined with integrity management and fleet management services, our sustainable packaging solutions facilitate circularity across the supply chain, yielding an optimized environmental footprint through reduced plastic, water conservation, and lower greenhouse gas emissions.
